

REGION 15 SPRING TREK

April 18-19, 2014

Burbank, CA

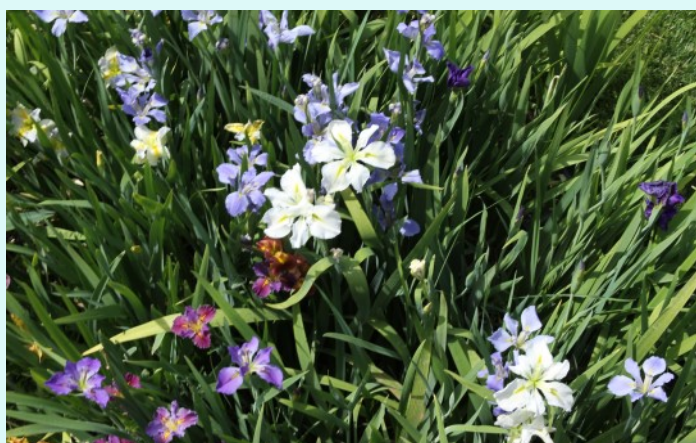

The Southern California Iris Society welcomed attendees to the Region 15 Spring Trek 2014. The tour brought trek-goers to the San Fernando Valley area. There were 3 guest gardens, one of which had the master planting. Twelve hybridizers, both in- and out-of-region, participated with 34 iris cultivars and 33 seedlings. Each garden also displayed personal collections of irises, both bearded and beardless.

Award-winning hybridizer Paul Black of Mid-America Garden in Salem, Oregon presented a Judges' Training course on median irises Friday night. He showed a program on his latest hybridizing efforts and median introductions during the banquet dinner the following night.

Gerry Snyder, AIS Master Judge and past Region 15 RVP, conducted a one hour in-garden Judges' Training on tall bearded irises in one of the gardens.

Thank you Southern California Iris Society !
